**XXI WORLD CONGRESS September 3-8, 2011  
Postgraduate Course September 9 & 10, 2011**

## Welcome

Dear Colleague:

The International Society for the Study of Vulvovaginal Disease (ISSVD) will be hosting our XXI World Congress and Postgraduate Course at the Marriott Rive Gauche, Paris, France. The World Congress will be from 3-8, September 2011 and will be followed by the International Postgraduate Course on the 9-10, September 2011.

The ISSVD holds a meeting every other year and is composed of a World Congress and a Postgraduate Course.

The **World Congress** is attended by many fellows of the ISSVD and numerous invited guests. It is a wonderful opportunity for clinicians from around the world to meet together in a friendly atmosphere and to review recent advances in the field of vulvovaginal disease. The members have the opportunity to present their studies and to be informed about ISSVD members' collaborative work on definitions of vulvovaginal conditions and therapeutical recommendations. This stimulating and friendly atmosphere is propitious to the emergence of many new ideas. Our events typically have a very high rate of return attendees which emulates the high level of interest and dedication of this group.

The **Postgraduate Course** will be taught by 47 of the world's most knowledgeable specialists in the field of vulvovaginal disease and typically attracts gynecologists, oncologists, dermatologists, pathologists, genitourinary specialists, family practitioners, physiotherapists and nurse practitioners. The goal of this course is to present concise, practical and up to date information about vulvovaginal diseases, in order to help attendees improve their skills in the management of vulvovaginal disease.

We hope to see you in Paris!
